

Am I living at home in Australia

Australia, my adopted land
Where I live and have my home
I saw Australia as the most beautiful garden
I saw Australia flowers of religions
I saw dense forests of trees of humbleness
I saw calm floating rivers of acceptability
I saw vast deserts of forgiveness
I saw high mountains of tolerances
I saw flying birds who were singing love songs
That was my Australia where I migrated

But the same Australia I want to see in future
I want to see
Where everyone shall contribute and not whip out
I want to see
Where everyone shall associate and not dig out
I want to see
Where everyone shall participate and not be kicked out
I want to see
Where everyone shall be respected and not hated out
I want to see
Where everyone shall live in peace and not killed out
I have my firm belief that
Everyday throughout my life,
O Aussie Mate
I shall feel that I am living at home in Australia
A home surrounded by beautiful multicultural Mates
Yes, every day, I want to feel that I am living at home
Yes everyday
